

MIND MASTERS

THE ENTREPRENEURS BRAINSTORMING TEAM

2011 3rd Quarter Strategy Session

Summer Boost, Not Break Keep Your Business Growing Year-Round

Just because summer has arrived doesn't mean your business has to be on a break. True success doesn't wait. And meaningful success comes by first identifying what mountain you want to climb. Building a business, like climbing a mountain, takes courage and keeping your sights on the goal.

At this very moment, you are in one of these three positions - above, on or below your target. **RIGHT NOW** is the best time to review, reflect and if necessary, correct your performance before too much time and distance gets away. Take control of this time to create clear, easy to follow priorities that are empowering and reassuring to you and your customers.

This dynamic program provides a *5 Stage Business Building* process that focuses on specific areas of business to help you . . .

- Transform **ideas** into **tangible** results
- Gain a sustainable advantage in your market
- Learn Critical Success Factors for Growth
- See better profits from more focused action
- Expand capabilities and enjoy the experience of learning from others
